PROFESSIONAL SUMMARY

An ambitious Artificial Intelligence student specializing in the Internet of Things (IoT). Proficient in the complete data lifecycle—from robust data cleaning and statistical analysis to developing actionable insights. Skilled in Python and SQL with a solid foundation in Machine Learning and Embedded Systems. Dedicated to building intelligent security solutions and innovative AI-driven projects.

EDUCATION

B.Sc. in Artificial Intelligence (IoT Specialization)

2023 – 2027

Faculty of Artificial Intelligence, Menoufia University

- Focusing on Neural Networks, Digital Signal Processing, and IoT Architectures.
- Core coursework: Data Structures, Logic Circuits, and Embedded AI.

PROFESSIONAL TRAINING

Professional AI Diploma

Instant Academy

- Comprehensive training in Machine Learning, Deep Learning, and NLP applications.

Technical Training Program

Information Technology Institute (ITI)

- Intensive focus on modern software development principles and architectures.

TECHNICAL SKILLS

Programming:	Python (Pandas, NumPy, Scikit-learn), C++, SQL.
Data & BI:	Power BI, Advanced Excel (Macros/VBA), Data Cleaning & ETL.
AI & Engineering:	Machine Learning, NLP, MATLAB (Signal Processing), Circuit Design.
Hardware:	Embedded Systems, Sensor Integration, IoT Frameworks.

KEY PROJECTS

AWA (Alert Without Alarm) | AI Security Lead

Developed an intelligent security system using AI Agents and NLP to interpret hacker intent via command analysis, prioritizing silent detection and real-time threat assessment.

Biomedical Signal Processor | Lead Developer

Built a MATLAB-based system for ECG signal filtering. Applied Fourier Transforms to eliminate noise and enhance signal clarity for diagnostic accuracy.

Predictive Data Dashboard

Designed a dynamic Power BI dashboard to visualize complex datasets, converting raw data into actionable insights for strategic decision-making.

LANGUAGES & SOFT SKILLS

- Languages:** Arabic (Native), English (Technical Proficiency).
- Soft Skills:** Analytical Problem Solving, Fast Learner, Team Collaboration, Technical Communication.
